

JRF GLOBAL

Pioneering Solutions since 1977 - Responsibly

Saturday, April 17, 2021

Dear Colleague

This refers to the current situation related to the corona virus. As you would expect, JRF is closely monitoring the National and International inputs. The current rise in cases for India have not impacted JRF.

As a precaution, JRF has put following measures in place with immediate effect:

- Monitor guardedly the potential impact of the current situation related to novel coronavirus (COVID-19) on JRF's routine daily operations with focus on the safety of our employees, the health & welfare of the animals in our care and the continuation of the work of our customers.
- Direct the JRF colleagues to avoid travel to the affected areas and keep themselves safe from possible spread of the contagion.
- Monitor the national and regional situation(s). All the meetings are held virtually.

In the meanwhile, all the studies that are planned at JRF are going on as scheduled and I do not foresee any change in it. All the required precautions in terms of the supplies and chemicals, etc. are unaffected and I am confident that it will be business as usual, for now. There are chances of delay in some of the shipments, however we will make all the efforts to reduce the delay time with our efforts. I and my colleagues at JRF feel that this is an appropriate response to ensure that there is business continuity. However, if the situation is changes, then we at JRF are ready to respond further as per local and national Government authority's advice.

If you have any queries, please direct them to the e-mail ID bd@jrffonline.com. JRF colleagues are monitoring all correspondence and will respond as needed.

With best regards,

Sameer G. Navalgund Ph.D., MBA
Director, JRF-Global
